ACADEMIC
SIDE

Encharted Media AB

Data work to reveal and heal.
Founder and button presser :)

PROFESSIONAL
SIDE

I am mostly still maintaining and improving Vizabi Charts, originally built for Gapminder, but now offered commercially.

Also offering courses in Data Visualisation, see enchart.me

GAPMINDER

10 YEARS | FULL-TIME | STOCKHOLM, SWEDEN

2015 to 2025: Visualisation developer → Head of software

Been part of developing and maintaining Gapminder's in-house open source data visualisation software Vizabi, which replaced all the old charts in Flash and had gone through many iterations. The software allows presenting complex datasets from many sources in animated interactive, colourful mobile-friendly way. See it in action at gapminder.org/tools

- Coding lots of javascript;
- Hiring developers and testers, delegating tasks;
- Contributing visuals to the bestselling book Factfulness;
- Doing complexity management in a large software project.

ABB

1 YEAR | MASTER THESIS → FULLTIME | VÄSTERÅS, SWEDEN

Data graphics designer and developer, UX researcher

Creating interactive dashboards for analysis and management of alarms in a fleet of oil platforms.

PATENT: HANDLING OF ALARMS HAVING A CAUSAL DEPENDENCY

RTSoft

2 YEARS | PART-TIME | YEKATERINBURG, RUSSIA

HMI and SCADA designer, Automation and PLC programmer

RTSoft designs and implements automation solutions for process & transport control. I designed / built UIs for ore factory operators and programmed industrial controllers that operate the machinery

Project in focus: vizabi.com
the «PLAY» button for your data

Vizabi is the software that animates numbers over time, bringing them to life — so that the truth can win over buzzwords. Built in Gapminder and now available commercially through my company
